Alcuin College uses a linear timetable with all courses occurring through the entire year, according to a fixed Monday-Friday schedule. The report card comments provide teachers the opportunity to comment on student learning in relation to the subject's learning standards. Comments will consist of what the student knows (content), can do (curricular competencies), understands (transfer of big ideas and concepts), and ways to support further development. Although there are three distinct report cards throughout the year for our students, other informal communications can occur at the discretion of the student's teacher and upon request.
