

Alcuin College is committed to the health and safety of its students and anyone attending at the school. The school recognizes that the use of drugs, tobacco, vapour products, alcohol, certain medications, and impairment generally can have serious effects on students and the learning environment. Accordingly, the school is committed to preventing substance use and impairment on school property, and at all times during school hours. This policy applies to all students of the school.

Alcuin College strictly prohibits students from possessing, manufacturing, offering for sale, selling, distributing, consuming, or using drugs, tobacco, vapour products, or alcohol during school hours, whether on or off school property. These actions are considered harmful to student health and safety, detract from an individual's educational potential, compromise the welfare of others in our community, and, in most cases, violate the law.

Students who promote the use of tobacco, vapour products, alcohol and illicit drugs amongst the Alcuin College community while off campus may also be considered in violation of this policy. This policy also includes any prescription or non-prescription medication or chemical substance not taken in accordance with Alcuin College's regulations on administering medication to students.

Students breaching this policy may be subject to discipline in accordance with the School's Code of Conduct.
